

7th India Project Intellectual Property Rights Summit

Since 2004, the George Washington University Law School in association with the Confederation of Indian Industry (CII) has hosted the IPR Summit in India as part of its India Project. IP Summit - A Retrospective

The summit has received wide coverage. *The Hindu* described “The team-brought together by George Washington (GW) University Law School [as a] bastion of intellectual property law in the United States.” *The Economic Times* observed, “The objective of the international conference is to foster partnership between US, European and Asian industry leaders for collaborative projects in IPR and disseminating international best practices in IP protection and enforcement.”

The Telegraph stated “Frederick M. Lawrence, dean of America’s prestigious George Washington University Law School, was quarter way into his speech at Aligarh Muslim University a few weeks ago when he noticed some objects coming in his direction. Lawrence was pleasantly surprised that the flying objects moving in his direction were rose petals being showered on their guest speaker by students of the 134-year old residential university.”

The Metropolitan Corporate Counsel has twice profiled GW Law’s India Project. In a recent issue, Associate Dean Karamanian was quoted in an interview as follows: “We have contributed to education by heightening the dialogue and understanding between India and the U.S. on IP law.”
