Building Global Competitiveness in Defence & Aerospace Manufacturing

The defence industry in India is experiencing significant and progressive change. In keeping with the adage that ‘change brings opportunity’, opportunities abound both for India Inc. in meeting the Government of India’s (GoI) defence requirements, and for the Government in achieving its aspiration of autonomy in defence supply through the development a home market defence industry.

Conference on Opportunities in Defence & Aerospace Manufacturing

The 3rd Defence Conclave aims to bring together leaders from government, industry, and academia to exchange perspectives and information about critical defence offset policies, sector analyses and manufacturing technology programs for the production and sustenance of indigenous defense systems. This will be a forum for enhancing and leveraging the efforts of scientists, engineers, manufacturers, technology leaders and policy makers across the defense manufacturing industrial base.

Confederation of Indian Industry has formed a coalition with Society of Indian Automotive Manufacturing (SIAM), Society of Indian Defence Manufacturers (SIDM), Indian Machine Tools Manufacturers Association (IMTMA), Automotive Components Manufacturers Association (ACMA) for augmenting the inventory of Ventilators and Personal Protection Equipment (PPE) through manufacturing and/or importing of the same by the high-end manufacturing companies as current capacity of healthcare companies have limited capacity/volume for producing these products vis-a-vis estimated requirement during this crisis of COVID-19.

The Coalition has taken three pronged actions for augmenting the inventory of ventilators and PPEs as follows:

<table>
<thead>
<tr>
<th>Action 1</th>
<th>Consortium of industry who would like to import Ventilator/PPEs immediately.</th>

CII Suggests Measures to Improve Ease of Doing Biz

Press Trust of India

Industry body CII has identified measures in key areas for improving India’s ease of doing business scenario that can help the country achieve self-reliance. Micro, small and medium enterprises (MSMEs) need a special helping hand, and should be exempted from approvals and inspections for three years under state laws while following all rules, the Confederation of Indian Industry (CII) said in a report. Self-certification route can be used for approvals for MSMEs with good track record, it has suggested. It also sought effective implementation of Online Single Window System as the first step towards strengthening ease of doing business.

Glimpses from our first meeting with the Joint Task Force in association with CII chaired by Mr. Sunil Mathur, Chairperson Western Region along with Industrialist & other dignitaries of the state.

With the new challenges posed by COVID-19, this was an interesting platform.

Need more ease of doing business for self-reliant India: CII

Steps for bringing further ease of doing business in the country will help bring more domestic and foreign investments, and help India in its aim of becoming self-reliant, a Confederation of Indian Industry (CII) statement said. The industry body has identified immediate and medium term measures in terms of ease of doing business to boost the economy.
