

**Government of India to invest Rs 1,800 crore to IIT-B for Solar Urja
Lamp program**

The program will provide clean light for study purpose to every child in the country

04th July, 2016

Government of India (GOI) will provide assistance of Rs 1,800 crore to IIT-Bombay for its Solar Urja Lamp (SoUL) programme.

Under the programme, the institution will disseminate solar lamps to 10 crore school children across the country. The mission commissioned with distributing 10 lakh solar lamps to school children.

The objective of this program is to provide clean light for study purpose to every child in the country in the fastest and most cost effective manner. For this, IIT Bombay partnered with NGOs having presence at grass-root level.
