CII's

4th edition of

Engineering Summit 2015

"Engineering to Global Exchange"

Wednesday, 26 August 2015: Ballroom, Hotel Surya Palace, Vadodara

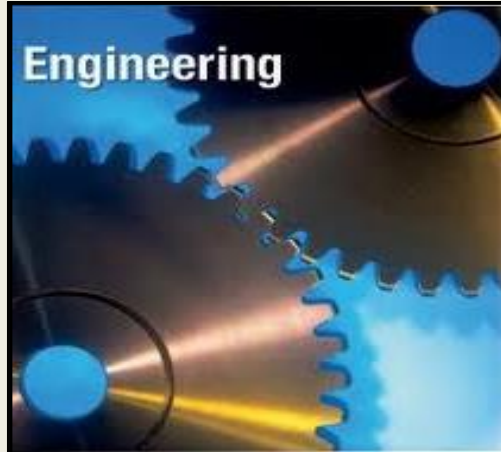

About CII's 4th edition of Engineering Summit 2015:

CII since inception has been forum of Indian Engineering Industry. The Changing Environment in Engineering Sector in India as well as the World has made it mandatory for Industry to keep re-visiting Engineering and re-define it's steps from Concept to Commissioning or Design to Production and the end product finding the utility with best ease of availability. Engineering has a significant role to the growth and in it is imperative that the dimension not only cover the Indian diaspora of Industry but also look with a broad vision to what Engineering becomes a platform for Global Exchange thereby giving the dimension of Engineering contributing to Growth and Sustenance of Indian Industry.

CII with mega success of the earlier three editions of Engineering Summits, is organizing the **4th Edition of Engineering Summit 2015** with the theme **"Engineering to Global Exchange"**. The objective of the Summit is to discuss on how Engineering as a core function can help the sector scale new heights. The summit will deliberate upon emerging challenges & the way forward for Engineering sector in terms of **Global Benchmark, Effective Engineering, Challenges & Optimization**. The Summit is expected to provide a common platform for the Leaders in this sector & the Technology Providers to interact, share and learn from the contemporaries, thereby giving the Industry participants a lead to define their approach with perspective to Global Exchange of Engineering leading to realize and help the sector realize its full potential.

Eminent thought leaders and experts from Industry will share best practices and case studies focusing on new ideas & initiatives in modern technologies in engineering & manufacturing sectors. The objective of this Summit is to provide new insights, showcase and help corporates to build & put in place effective strategies & systems aimed at efficient and taking the importance of technologies to new heights

4th edition of
