FOODBIZ INDIA 2017
Conference & Exhibition on Food Processing & Allied Industries
4th Edition
07 July 2017, The Gateway Hotel, Vijayawada, AP
OVERVIEW

The Indian food industry is poised for huge growth, increasing its contribution to world food trade every year. In India, the food sector has emerged as a high-growth and high-profit sector due to its immense potential for value addition, particularly within the food processing industry.

The food industry, which is currently valued at US$ 39.71 billion, is expected to grow at a Compounded Annual Growth Rate (CAGR) of 11 % to US$ 65.4 billion by 2018. Food and grocery account for around 31 % of India’s consumption basket. The Government of India has been instrumental in the growth and development of the food processing industry. The government through the Ministry of Food Processing Industries (MoFPI) is making all efforts to encourage investments in the business. It has approved proposals for joint ventures (JV), foreign collaborations, industrial licenses and 100 % export oriented units.

The Indian food and grocery market is the world’s sixth largest, with retail contributing 70% of the sales. The Indian food retail market is expected to reach Rs 61 lakh crores (US$ 915 billion) by 2020. The Indian food processing industry accounts for 32% of the country’s total food market, one of the largest industries in India and is ranked fifth in terms of production, consumption, export and expected growth. It contributes around 14% of manufacturing Gross Domestic Product (GDP), 13% of India’s exports and 6% of total industrial investment. Indian food service industry is expected to reach US$ 78 billion by 2018.

According to the data provided by the Department of Industrial Policies and Promotion (DIPP), the food processing sector in India has received around US$ 7.47 billion worth of Foreign Direct Investment (FDI) during the period April 2000-December 2016. We, the Confederation of Indian Industry (CII) estimate that the food processing sectors have the potential to attract as much as US$ 33 billion of investment over the next 10 years and also to generate employment of nine million person-days.

Going forward, the adoption of food safety and quality assurance mechanisms such as Total Quality Management (TQM) including ISO 9000, ISO 22000, Hazard Analysis and Critical Control Points (HACCP), Good Manufacturing Practices (GMP) and Good Hygienic Practices (GHP) by the food processing industry offers several benefits. It would enable adherence to stringent quality and hygiene norms and thereby protect consumer health, prepare the industry to face global competition, enhance product acceptance by overseas buyers and keep the industry technologically abreast of international best practices.

Growth Areas in Food Processing Industry:

Though, all sectors in food processing industry expected to grow at a much higher rate compared to manufacturing sector, a few sectors identified below have a potential to grow at a much faster rate.

- Integrated Cold Storage Facilities
- Pre-Processing and Pre-cooling facilities near farms
- Modernization of agriculture markets, warehouses and abattoirs.
- Efficient Handling facilities
- Mega Food parks
- Fruits and Vegetable Processing

OBJECTIVES

India is very diverse and food processing industry traditionally is localized and un-organized. The lack of training on processing training, lower productivity etc. leads to higher costs and also limited market reach. There is an urgent need to bring the stakeholders of industry on common platform to share the latest in food processing and how it will help to grow the business.

Confederation of Indian Industry (CII) work to create and sustain an environment conducive to the growth of industry in India, partnering industry and government alike through advisory and consultative process. CII also takes initiatives to bring the various stakeholders of specific industry on common platform by organizing Conference & Exhibitions.

FoodBiz India 2017 is an International Conference and Exhibition on Food Processing with the theme, Rejuvenating innovation and challenges in food processing and allied Sectors. It is a platform that
brings together all the stakeholders such as industry, academia, policy agencies etc. to a common platform.

**FoodBiz India 2017 provides:**

- Platform for networking between the Indian and Overseas Players catering to the entire value chain system.
- Networking of stakeholders to work towards the overall growth and development of the sectors.
- Providing technical support in industry led collaborative projects
- Explore and Identify Emerging Opportunities and Thrust Areas
- Entrepreneurs, Banks, Financial Institutions and Venture Capitalists to invest.

**DATE & VENUE**

07 July 2017,
The Gateway Hotel
Vijayawada, Andhra Pradesh

**STRUCTURE OF PROGRAM**

It is proposed to organize a one day Conference on 7 July 2017 and one day Exhibition on 7 July 2017.

The objective of the conference is to promote and provide technology based knowledge sharing among the stakeholders of the agro and food processing sector. The conference highlights the expanding role of emerging technologies, global food industry trends and functionality in this domain with emphasis on applications and benefits of emerging technologies, with a market focus.

At FoodBiz India 2017, latest technologies in food processing, cold storage and warehousing, logistics and related products etc. will be exhibited by a large number of Indian and International companies at the exhibition and expected to be visited by about 1000 visitors. Also, there will be structured B2B meeting expected to take place during the course of exhibition.

**SPEAKERS**

Eminent Speakers from Industry, Research Institutes, Scientists, Experts from India and abroad, Ministers, Senior Officials from State and Central Government Ministries and Departments, etc. will be presenting in the Conference.

**TARGET AUDIENCE**

**A. Industry & Trade**

- Food Processing Plants
- Manufacturers of Processed & Packaged Foods
- Potential Investors
- Progressive Farmers, Agro / Horticulture Producers
- Hotels / Restaurants (including Fast Food Chains)
- Dealers & Distributors of Food Products
- Groceries / Kitchen Equipments
- Dairy Processors / Manufacturers of Dairy Products
- Traders, Wholesalers of Food Products
- Fruits, Vegetables, Pulses, Grains, Farm Products & Commodities
- Universities, Research Institutions & Colleges

**B. National and International Retail Chains**

- Retail Chains - Supermarkets, Small Retail Establishments
EXHIBITORS PROFILE
- Food Processing Technology & Machinery
- Refrigeration & Cold Chain System
- Processed & Packaged Foods, Ready to Eat Food, Snack Food
- Bakery Equipment & Machinery, Technology, Ingredients, Fragrances & Flavours
- Retailing & Vending System, Hotel & Kitchen Equipments, Hospitality Products & Equipments
- Packaging Machinery & Technology, Bar Coding, Inks & Materials

Participation Benefit
- Enable companies to display their latest in food processing technology and also explain to probable users
- Enable companies to understand the latest trends in the relevant sector and enable them to adopt best technology / solutions to meet their ever increasing demands for efficient, better and environment friendly solutions.
- Opportunity to meet over corporates, through structures B2B meeting, during the exhibition
- Listing exhibitor’s directory which will be shared with over 7000+ members of CII for reference and use.
- The opportunity for one to one interaction with existing customers for feedback and improve relationship.
- Understand the latest research, innovations, technological development through various presentations during Conference along with exhibition.

Confederation of Indian Industry (CII)
The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering industry, Government, and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, playing a proactive role in India’s development process. Founded in 1895, India’s premier business association has over 8,300 members, from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 200,000 enterprises from around 250 national and regional sectoral industry bodies.

CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, healthcare, education, livelihood, diversity management, skill development, empowerment of women, and water, to name a few.

The CII theme for 2017-18, India Together: Inclusive. Ahead. Responsible emphasizes Industry’s role in partnering Government to accelerate India’s growth and development. The focus will be on key enablers such as job creation; skill development and training; affirmative action; women parity; new models of development; sustainability; corporate social responsibility, governance and transparency.

With 66 offices, including 9 Centres of Excellence, in India, and 10 overseas offices in Australia, Bahrain, China, Egypt, France, Germany, Singapore, South Africa, UK, and USA, as well as institutional partnerships with 344 counterpart organizations in 129 countries, CII serves as a reference point for Indian industry and the international business community.
