DELEGATION

Confederation of Indian Industry

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering industry, Government, and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, playing a proactive role in India's development process. Founded in 1895, India's premier business association has around 9000 members, from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 300,000 enterprises from around 276 national and regional sectoral industry bodies. CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, healthcare, education, livelihood, diversity management, skill development, empowerment of women, and water, to name a few.

India is now set to become a US\$ 5 trillion economy in the next five years and Indian industry will remain the principal growth engine for achieving this target. With the theme for 2019-20 as 'Competitiveness of India Inc - India@75: Forging Ahead', CII will focus on five priority areas which would enable the country to stay on a solid growth track. These are - employment generation, rural-urban connect, energy security, environmental sustainability and governance.

With 66 offices, including 9 Centres of Excellence, in India, and 10 overseas offices in Australia, China, Egypt, France, Germany, Singapore, South Africa, UAE, UK, and USA, as well as institutional partnerships with 355 counterpart organizations in 126 countries, CII serves as a reference point for Indian industry and the international business community.

Confederation of Indian Industry

ASIA HEALTH 2019

SERVING THE WORLD'S FASTEST GROWING
REGION - THROUGH HEALTHCARE CONVERGENCE

16-19 OCTOBER 2019 TAJ PALACE NEW DELHI

INTRODUCTION

ASIA HEALTH 2019 - a 3.5 days long health thought leadership platform - bringing multiple stakeholders to deliberate and discuss the future of Health. It will serve to enhance strategic policy & business synergies between competitive players in the Healthcare sector.

A one of its kind platform with influential voices, experts from within and outside the sector. It will see a global conglomeration of Industry Experts, Senior Policy-makers, Health Ministers, Decision-Makers from the ASIA region, and the multiple stakeholders including innovators who imagine a more equitable and healthier world.

KEY OBJECTIVE

Convergence of the different sub-sectors towards working more cohesively for a unified agenda of 'Health for All'

Deliberations and dialogues to define the roadmap for the 'Universal Health Coverage'

Understanding investment opportunities in Indian Healthcare Industry

Improving the state of Primary healthcare delivery system

Building up a strategy for International market

Matching Business + Policy & Welfare - offering Novel Health Solutions to a diverse range of Health Challenges in the Asia Region

KEY ELEMENTS

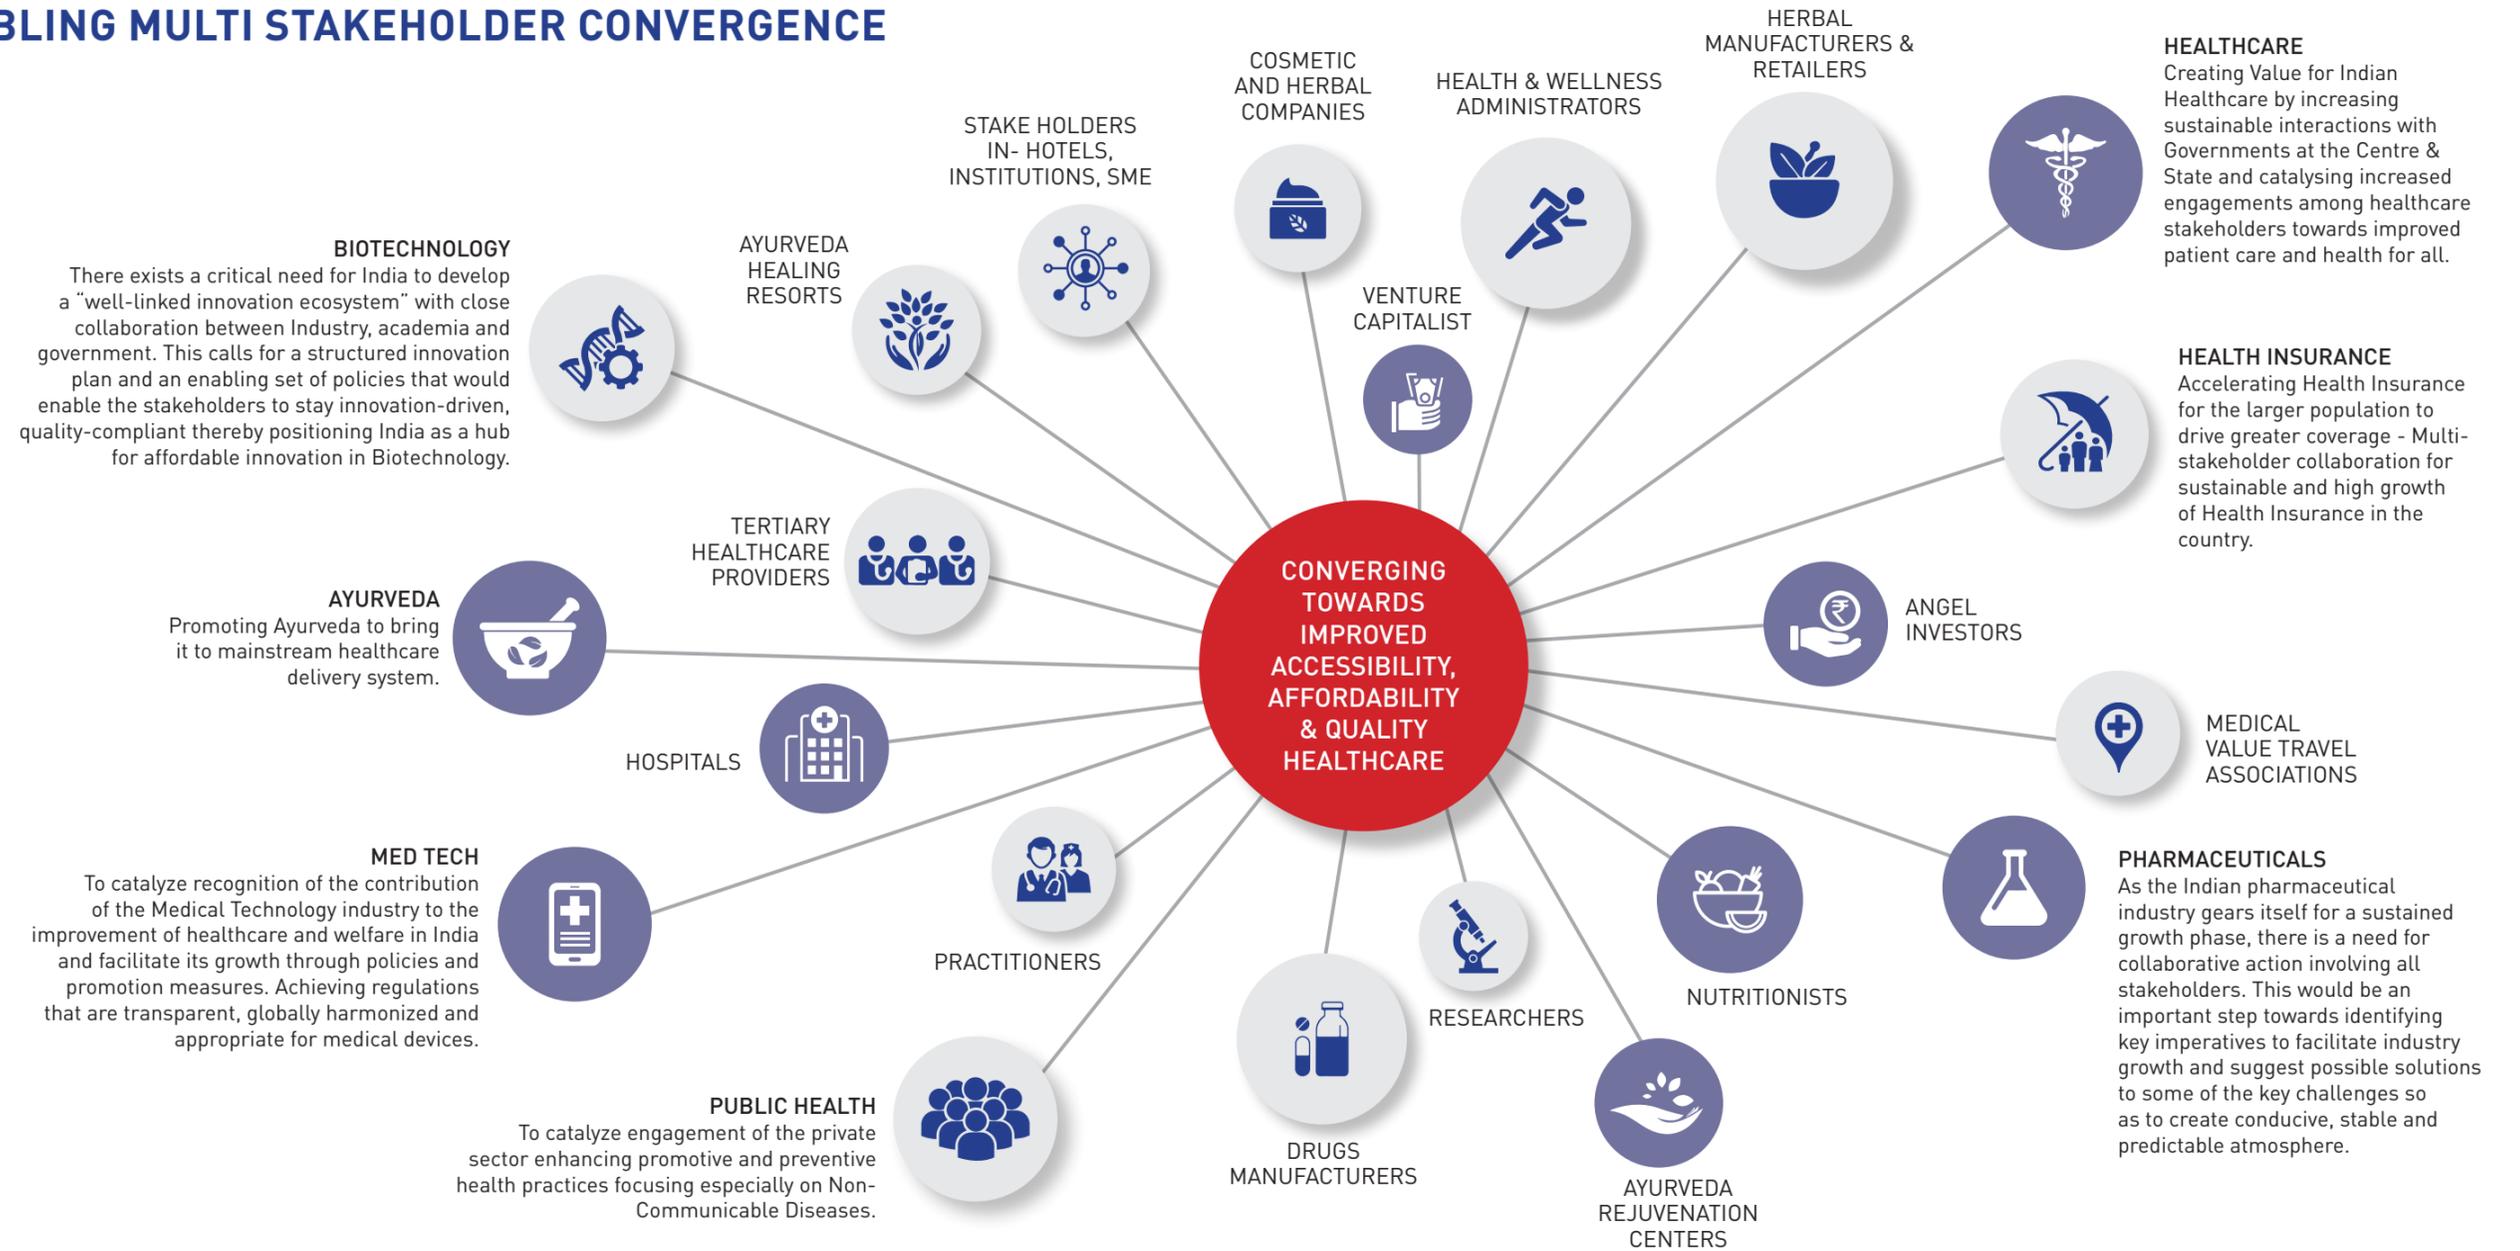

ENABLING MULTI STAKEHOLDER CONVERGENCE

BIOTECHNOLOGY
There exists a critical need for India to develop a "well-linked innovation ecosystem" with close collaboration between Industry, academia and government. This calls for a structured innovation plan and an enabling set of policies that would enable the stakeholders to stay innovation-driven, quality-compliant thereby positioning India as a hub for affordable innovation in Biotechnology.

AYURVEDA
Promoting Ayurveda to bring it to mainstream healthcare delivery system.

MED TECH
To catalyze recognition of the contribution of the Medical Technology industry to the improvement of healthcare and welfare in India and facilitate its growth through policies and promotion measures. Achieving regulations that are transparent, globally harmonized and appropriate for medical devices.

PUBLIC HEALTH
To catalyze engagement of the private sector enhancing promotive and preventive health practices focusing especially on Non-Communicable Diseases.

HEALTHCARE
Creating Value for Indian Healthcare by increasing sustainable interactions with Governments at the Centre & State and catalysing increased engagements among healthcare stakeholders towards improved patient care and health for all.

HEALTH INSURANCE
Accelerating Health Insurance for the larger population to drive greater coverage - Multi-stakeholder collaboration for sustainable and high growth of Health Insurance in the country.

PHARMACEUTICALS
As the Indian pharmaceutical industry gears itself for a sustained growth phase, there is a need for collaborative action involving all stakeholders. This would be an important step towards identifying key imperatives to facilitate industry growth and suggest possible solutions to some of the key challenges so as to create conducive, stable and predictable atmosphere.
