CII Virtual Conference on Artificial Intelligence “Demystifying Responsible AI”

Tuesday, 30th June 2020 | 11:30 AM – 1:30 PM (Cisco Webex platform)

Programme Outline

1100 hrs onwards **Delegates to join the Digital Platform**

1130 – 1230 hrs **Inaugural Session: Demystifying Responsible AI**

While Artificial Intelligence (AI) is influencing all aspects of human and business activity, we are currently knocking the doors of unexplored AI territories. While the potential benefits emerging from AI technologies have been widely discussed, there is an urgent need to understand how AI systems should be implemented to operate responsibly. Given the power that AI systems command today, the significance of their decisions, and the impact they create in the society, it is critical for us to instil and infuse basic principles related to ethics, transparency, and inclusiveness while designing and operationalizing these systems.

1230 – 1330 hrs **Panel Discussion on how more responsible AI systems can be implemented**

The panel discussion would focus on how more responsible AI systems can be implemented. We will explore this topic from the following dimensions.

- How is AI helping your industry today?
 - How can we make AI more Reliable?
 - Is AI Inclusive today?
 - What is the right Governance structure for development of AI?
 - How can we make AI more Humane?
 - Can we make AI more explainable or Transparent?
-

1330 hrs **Conference Concludes**
